ABOUT ME

Please visit my personal webpage for a more interactive experience

I was born in Genoa (Italy) and since 2014 I live in Berlin.

Software Engineer combining a rigorous computer science education from *42 Berlin* with a B.Sc. in Economics at *Humboldt University*. Bringing professional experience from leading European FinTechs (Klarna, Clark). I specialize in TypeScript, React, and Next.js, with a proven ability to bridge complex business logic, such as revenue sharing and market analytics, with scalable technical execution.

I generally like to read books, write, play the guitar and dj.

WORK EXPERIENCE

InnoBee The Randstad (Remote), Netherlands

Fullstack Developer

Mar 2025 – 28 Feb 2026

- Contributed to a TypeScript and React codebase, ensuring code quality by implementing comprehensive ESLint standards across the frontend.
- Managed frontend containerization using Docker, aligning local development environments with Virtual Private Server deployments.
- Assisted in maintaining schema synchronization between frontend clients and backend microservices to ensure reliable API compatibility.
- Collaborated with the DevOps team to streamline CI/CD pipeline workflows, contributing to automated deployment processes.
- Participated in cross-functional code reviews, focusing on modern web development practices and maintainability.

Yellow Srl Genoa (Remote), Italy

Software Engineer Intern

Nov 2024 – Mar 2025

- Developed responsive UI components for property listing applications using React.js, HTML5, and Tailwind CSS.
- Integrated the Google Maps API via Node.js to sync and display dynamic property locations.
- Wrote and optimized MySQL queries to improve data retrieval speeds for property searches and agent reporting.
- Managed development environments with Docker and gained practical experience deploying updates via GitHub Actions.

Klarna Berlin, Germany

Address Chausseestraße 29, 10115, Berlin, Germany | **Website** www.klarna.com

Business Development Associate

Apr 2022 – Apr 2023

- Stakeholder Mapping, research of key decision-makers
- Running Partner Success Meetings (20-30 attendees), with a goal of achieving strategic partnerships
- Drafting outreaches for CXOs and senior-level managers
- In-depth market research of partner prospects

CLARK Berlin, Germany

Address Friedrichstraße 194, 10178, Berlin, Germany | **Website** www.clark.de

Junior Partnerships Marketing

Sep 2021 – Apr 2022

- Managed complex financial logic by calculating and executing monthly payouts for revenue-share partners
- Communication with Partners about our news, setting meetings, sending invoices

- Taking part in important strategic meetings with revenue share partners (N26, DKB, Gorillas, etc.)
- Developed frontend promotional environments utilizing Webflow.
- Building Landing Pages (Contentful&WordPress), Templates (Google Web Designer - HTML), Tracking (Adjust), Mapping, Cost Attribution, and Voucher codes (OPS UI)
- Running Newsletter Tests with Partner: Different kinds of tests with Creatives, Texts, Titles (VWO)
- Research new partners for Marketing Partnerships

PROJECTS

MAR 2026 – CURRENT

WEB CONSULTANT & DEVELOPER – I PELOSETTI DI SILVANA ONLUS

- Provided pro-bono technical consulting for a non-profit animal shelter, diagnosing and resolving critical WordPress/WooCommerce issues affecting animal listing pages and site SEO
- Identified that WooCommerce misuse was causing Google to incorrectly index the organization as a commercial store, damaging online visibility for a non-profit
- Proposed and guided implementation of Custom Post Types architecture to replace WooCommerce for animal listings, improving filtering functionality and search engine representation
- Advised on internationalization strategy (hreflang tags, TranslatePress) to support multilingual audiences across Italian and English-speaking adoption networks
- Translated non-technical stakeholder requirements into actionable technical solutions, communicating effectively with non-technical staff

Shellfolio

Interactive Terminal Portfolio Website
Developed a unique portfolio website that simulates a Unix terminal interface, showcasing projects through command-line interactions. Built with modern web technologies and deployed on Vercel, the site features an authentic shell experience where visitors can navigate through project information using familiar Unix commands. Demonstrates creativity in UI/UX design by combining nostalgic terminal aesthetics with modern web development practices to create an engaging and memorable user experience.
Stack: TypeScript, React, Next.js

Link https://petermoelzer-shellfolio.vercel.app/

Transcendence

Developed a full-stack, microservices-based multiplayer game platform using Next.js for both the frontend and independent backend services (Auth, Chat, Game). The architecture integrates PostgreSQL and MongoDB via Prisma for robust data management, while leveraging Socket.IO for seamless real-time features including live chat, matchmaking, and interactive multiplayer gameplay. Additionally, the project features an autonomous AI opponent trained with PyTorch, and the entire ecosystem is containerized using Docker to ensure scalable and consistent deployments across environments.

Webserv

Custom HTTP server implemented in C++98. This project aims to provide a deep understanding of how HTTP servers operate, focusing on core network aspects and non-blocking behavior to handle multiple concurrent connections efficiently. The server's primary function is to receive HTTP requests from clients, process these requests, and send appropriate HTTP responses back.
Stack: C++98, Unix, Nginx, JavaScript, HTML, CSS

EDUCATION AND TRAINING

JUL 2023 – APR 2026 Berlin, Germany

Computer Science 42 Berlin

At 42, I acquired in-depth software development knowledge through a project-based curriculum focusing on:

- **Algorithms & Data Structures**
- **Mid-level programming**: various projects in C/C++
- **Systems Engineering:** Working with Linux kernel, virtual machines (VM) and Docker containerization (creating isolated development environments), networking basics (IP addressing, subnet masks, routing).

- **Shell scripting:** Programmed own shell project from scratch, integration of Git for version control in team projects.
- **Collaborative problem solving**: agile development in peer learning projects - code reviews, pair programming, troubleshooting in teams.

Website https://www.42network.org/

SEP 2014 – APR 2020 Berlin, Germany

Bachelor of Science in Economics Humboldt Universität zu Berlin

I have a bachelor degree at Humboldt Universität zu Berlin in the field of economics. My thesis concerned around the subject of dynamic macroeconomics with focus on speculative bubbles.
Beside the theoretical knowledge in economics such as econometrics, micro- and macroeconomics, and an understanding of the central underlying mechanisms of the economy, I posses also more practical skills. I'm confident with statistical softwares such as Stata, R, and I'm able to use also other programs as well (Excel, Trello, LaTeX...).
At the university I also attended few juridic exams such as: private-, public, business- and corporate law. I posses knowledge in marketing theory and e-business. In finance I'm confident in portfolio diversification and market analysis.

Address Unter den Linden 6, 10117 , Berlin, Germany | **Website** https://www.hu-berlin.de/de | **Field of study** Economics | **Thesis** The Macroeconomics of Rational Bubbles: A User's Guide

LANGUAGE SKILLS

MOTHER TONGUE(S): Italian

Other language(s):

German

Listening C2
Spoken production C2
Reading C2
Spoken interaction C2
Writing C2

English

Listening C2
Spoken production C1
Reading C2
Spoken interaction C1
Writing C1
