● ABOUT ME

I was born in Genoa (Italy) and since 2014 I live in Berlin.

I have a bachelor of science degree from *Humboldt Universität zu Berlin* in the field of economics and currently finishing my further training in computer science at the *42 school*.

Economist transitioning into software engineering, driven by a fascination with how technology—particularly AI—can transform data into actionable insights. After analyzing markets and building partnerships (Klarna, Clark), I pursued *computer science at 42 School* to bridge business strategy with technical execution, build and create new software.

I generally like to read books, write, play the guitar and dj.

SEP 2014 – APR 2020 Berlin, Germany
BACHELOR OF SCIENCE IN ECONOMICS Humboldt Universität zu Berlin

I have a bachelor degree at Humboldt Universität zu Berlin in the field of economics. My thesis concerned around the subject of dynamic macroeconomics with focus on speculative bubbles.
Beside the theoretical knowledge in economics such as econometrics, micro- and macroeconomics, and an understanding of the central underlying mechanisms of the economy, I posess also more practical skills. I'm confident with statistical softwares such as Stata, R, and I'm able to use also other programs as well (Excel, Trello, LaTeX...).
At the university I also attended few juridic exams such as: private-, public, business- and corporate law. I posess knowledge in marketing theory and e-business. In finance I'm confident in portfolio diversification and market analysis. The university experience also enriched me as a person and I'm planning to continue my studies applying to a master degree.
